***Claim Rejections - 35 USC § 102***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-9, 26-36, 48-49 and 50-51 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Marouiss.

See the appropriate paragraph of the 11/8/07 Office action for the teachings of Marouiss.

In response to the 1/8/08 amendments and new claims 50-51, Marouiss teaches in figure 38 relative movement of the dispensing manifold(3902) to the holder(3906) to insure the two are parallel and the dispensing nozzles(3920) are properly align with the wells(3908). The Office has read this on the newly claimed limitations “ ... said substrate mount and said dispensing ... and said dispensing device.”

***Response to Arguments***

Applicant's arguments filed 1/8/08 have been fully considered but they are not persuasive.

Applicants' characterize Marouiss, as seen in figure 39, the sample holder(3906) as not parallel to the dispensing manifold(3902). The Office does not agree. Figure(39) clearly shows the sample holder(3906) as parallel to the dispensing manifold(3902). Additionally, Marouiss teaches in figure 38 relative movement of the dispensing manifold(3902) to the holder(3906) to insure the two are parallel and the dispensing nozzles(3920) are properly align with the wells(3908).
